SUMMARY

Aspiring Computer Engineer | Passionate About Technology & Innovation
I am a second-year Computer Engineering student at the University of Beira Interior, with a solid foundation in programming and software development. Passionate about problem-solving and creating innovative technological solutions, I thrive in dynamic environments that challenge me to learn and grow. Experienced in project management, with strong organizational skills and a commitment to delivering quality work on time. Eager to contribute to cutting-edge projects, collaborate with talented teams, and continuously evolve as a tech professional.

EDUCATION

Bachelor's Degree in Computer Engineering
Universidade da Beira Interior   📅 09/2023 - 06/2026

Technical High School Diploma in Informatics (Level 4)
Colégio Internato dos Carvalhos   📅 01/2020 - 01/2023

PROJECTS

Progress Fit Web Application
📅 10/2022 - 06/2023

For my Professional Aptitude Project (PAP), I developed a **web platform for fitness progress tracking**, applying the full stack of technologies I mastered during my computer science specialised course at Colégio Internato dos Carvalhos.

Technologies used: PHP, JQuery, Javascript, SQL, Bootstrap, CSS, HTML

The platform features user registration, data visualization, and secure storage of metrics like weight, repetitions, and body measurements. Built with a focus on usability, I implemented an intuitive front-end interface using modern frameworks and a robust back-end to handle data processing and storage efficiently.

This project bridges my passion for fitness and technology, addressing a market gap with a tool that is both practical and scalable. I'm proud to have delivered a solution that reflects my technical expertise, and I'm eager to continue refining it and exploring its potential within the fitness industry.
- **Obtained the final classification of 18/20.**

LANGUAGES

Portuguese   Native   ●●●●●   **English**   Proficient   ●●●●○

Spanish   Intermediate   ●●○○○

KEY ACHIEVEMENTS

◆ **Project Building**
Developed a full-stack fitness web application using Javascript, PHP, JQuery and SQL, resulting in optimising exercise and progress tracking data, thus, helping users reach their goals quicker.

◆ **Team Project Leadership**
Successfully led a team of 4 to complete a project for a university class of Object Oriented Programming using Java.

EXPERIENCE

Technical Support & Network Intern
Central Lobão
📅 10/2021 - 03/2022   📍 São João de Ver, Portugal
Central Lobão S.A. is a Portuguese company specializing in hand tools, power tools, and equipment for construction, DIY, agriculture, and industry. Operates internationally with **famous brands** like **VITO**, **ASLO**, and **ITOOLS**.
- Learned to document network configurations, troubleshooting procedures, and software installations, contributing to streamlined internal processes and knowledge-sharing.
- Developed proficiency in configuring and troubleshooting network devices

SKILLS

Data Structures and Algorithms		Git
JQuery	C	Problem Solving
Teamwork	Software Engineering	
Computer Networks	JavaScript	PHP
SQL	Java	C++	Python
Web Development	Computer Science	
LaTeX	Troubleshooting
